

## FINANCE, OIL AND GAS

## New York

**NEW YORK, July 15.**—The week on the stock exchange opened with a continuation of last week's buoyant and varied dealings, further heavy buying resulting from the large accumulation of orders over the recess.

Again the movement appeared to be based on easy financial conditions and the numerous optimistic surveys and opinions from various sections of the country, these being tempered in a measure, however, by indications of further crop deterioration.

Last week's bank statement probably was an added factor with its increasing of excess reserves. Call money held most of the session at 6 to 6 1/2 per cent, but the rate for all industrial loans rose to 10 per cent, just before the close, even 12 being paid for small loans.

Western and Southwestern speculative interests were credited with much of the new buying, which concentrated to an unwonted extent in equipments comprehending the steel and iron shares and motors and their specialties.

Leaders of the movement, which lost little of its vigor despite extensive realizing for profits, included Crucible Steel at a net gain of 17 points and Baldwin Locomotive and Stutz Motors each gaining 10 points, with the latter at a new maximum.

## Pittsburgh

**PITTSBURGH, July 15.**—There was quite active trading in Ohio Fuel Oil on the Pittsburgh exchange yesterday nearly 2000 shares of the stock changing hands on a demand which continued throughout the session and worked the stock up from 28 1/2 to 29 1/2 where it closed. Ohio Fuel Supply acted well during the day on a good amount of trading and closed at 52 which was a gain of 1/4. Lone Star Gas was active and in demand, the stock opening at 26 1/2 and selling up to 27 1/2 on reports of the company having brought in a big well in Texas. Barnsdall Corporation was also in demand and sold between 23 1/2 and 24 1/2, closing at the latter. Riverside Western Oil preferred made a new high record of 24 and Riverside Eastern common was unchanged at 4 1/2, as was Oklahoma Gas at 24 1/2. Independent Brewing preferred sold off a point, closing at 11 1/2, while Pittsburgh Brew in common closed 1/2 higher at 10 1/2. A small amount of American Window Glass Machine common sold at 10 1/4, which was a new high record for the stock.

The first three hours after the pay was tapped the well flowed at the rate of 120 barrels an hour if the well is able to keep up the pace

**Oil and Gas.**  
In the Weir sand development on Jordan's creek, Big Sandy district, Kanawha county, W. Va., two very good producers have been drilled in the west side of the extension. The Ohio Fuel Oil company's second test on the William Nichols & Co. farm, located 500 feet west of No. 1, has been drilled into the pay. The first three hours after the pay was tapped the well flowed at the rate of 120 barrels an hour if the well is able to keep up the pace
